SUMMARY

A Master of Computer Applications (MCA) student passionate about frontend development, with a strong foundation in HTML, CSS, JavaScript, and Next.js. Committed to continuous learning and skill enhancement in web technologies. Seeking a challenging role to apply my knowledge, grow professionally, and contribute to the success of the organization.

TECHNICAL SKILLS

- HTML5 • CSS3 • Javascript • ReactJs • Responsive Design • Redux
- C++ • Data Structures and Algorithm • GIT • Tailwind CSS • REST API
- DOM Manipulation • NextJS • TypeScript • Linux

PROJECTS

Connectify

- Built a full-stack web application using Next.js App Router, Server Actions, and Incremental Static Regeneration (ISR) for optimized performance and dynamic content updates.
- Designed and managed a scalable database with Prisma ORM, ensuring efficient and type-safe data handling.
- Developed a responsive, user-friendly interface and implemented clean, maintainable, and type-safe code with TypeScript.

Real Estate Genie

- Real Estate app built using NextJS and Rapid API. Made use of server side rendering for better SEO. Also made use of file based routing available in NextJS
- Utilized Rapid API to populate the web app and also implemented search functionality to allow users to filter properties based on their needs.

My Tube

- Developed using React and Material UI
- Used Rapid API to populate the app with real video data. This allows you to display trending videos, search for videos and display related videos

EDUCATION

Master of Computer Application (MCA)

Federal Institute of Science and Technology(FISAT)

August 2023 – June 2025

Bachelor of Computer Application (BCA)

Gurudeva College Of Advanced Studies

July 2019 – May2022
